Sent from my Verizon, Samsung Galaxy smartphone

Please add this to the Vista Ridge 2 info.

Dear Planning Commission,

My concern is the added destruction of these surfaces which are already in an aged, sliding and deteriorating condition.

It would be irresponsible to think that heavy equipment vehicles, which would need to be used to develop this property, would not cause irreparable damage to these streets.

Please view the attached pictures of Aldercrest street from the Hemlock location and and the hill of Broadway street.

Thank you for your careful consideration,

Mike Brackenbrough

2130 Aldercrest Street
