

RECEIVED

10 / 19 / 21

To the members of Seaside Planning Commission,

I would like to make a request of the Planning Commission regarding your monthly meeting for November, 2021.

Please consider moving your meeting to a location that will hold a large number of citizens and those making presentations.

I appreciate that you placed the chairs closer in our last meeting and I also know you are constricted with having folks six feet apart so you will not be able to provide more seating.

May I suggest that, you move your meeting to the Senior Citizen Center that is run by Park and Recreation. This will give all citizens, that wish to attend, ample sitting space. Park and Recreation also has an excellent speaker system for the Commission to use. Due to the size of the room your members will be able to sit more than six feet apart. There is a large screen for displaying information.

Should the Senior Center not be available we could use the Convention Center River Room.

Being able to hear clearly and see the speakers is very important. Being able to follow the train of thought, questioning and replies of everyone involved is not only fair but will assist in bringing about open dialog and a positive solution.

Thank you for considering this request. I know I speak for many people in our community, and certainly anyone that has had to wait outside that we would appreciate this open forum setting.

Respectfully,

Kathy Samsel

343 Hemlock St.

Seaside, Oregon 97138

503 434 0145.
