Brian's two cents:

The team has been very productive over the last month plus. After creating marvelous experiences for our clients in July, the team started on deep cleaning and light maintenance projects.

July offered our team some logistical challenging, turnovers, and maintaining our cleanliness standard. Going from over 1500 teenagers and their families for Spotlight Dance Cup right into the Miss Oregon Scholarship Program is no small feat. Our team pulled everything off without a glitch. I continue to be amazed at how our team is always one step ahead of me and our client's needs.

I attended IAVM Venue Connect in Pittsburg the first week of August and was able to connect with some resources outside of our local region and vendor relationships. I was taking full advantage of venue tours and establishing relationships with key personnel at all types of venues nationwide. One relationship I'm excited about is a gentleman from Raleigh Convention Center, Brian Clark. Mr. Clark has successfully led his team through a few internal changes, from adding new locations to their workload to adding a new software system to manage the day-to-day operations.

Yesterday P&L Johnson and Inland Electric installed a new makeup air handling system for the kitchen. This is the first of a few HVAC projects, and everything went smoothly.
