§ 92.26 CLASSIFICATION OF LEVELS OF DANGEROUSNESS.

A dog shall be classified as potentially dangerous based upon specific behaviors exhibited by the dog. For purposes of §§ 92.25 through 92.29, behaviors establishing various levels of potential dangerousness are as follows:

(A) Level 1 behavior is established if a dog at large is found to menace, chase, display threatening or aggressive behavior or otherwise threaten or endanger the safety of any domestic animal.

(B) Level 2 behavior is established if a dog at large is found to menace, chase, display threatening or aggressive behavior or otherwise threaten or endanger the safety of any person.

(C) Level 3 behavior is established if a dog, while confined in accordance with § 92.06, aggressively bites any person.

(D) Level 4 behavior is established if a dog, while at large, aggressively bites or causes physical injury to any person or domestic animal.

(E) Level 5 behavior is established if:

(1) A dog, whether or not confined, causes the serious injury or death of any person;

In any case, no dog shall be classified as potentially dangerous if the behavior in question was directed against a trespasser inside any fully-enclosed building on private property if all exterior doors of the building were locked at the time the trespass occurred. (A) The Chief of Police or his designee shall have authority to determine whether any dog has engaged in the behaviors specified in § 92.26. This determination shall be based upon an investigation that includes observation of and testimony about the dog's behavior, including the dog's upbringing and the owner's control of the dog. These observations and testimony can be provided by the Community Service Officer or by other witnesses who personally observed the behavior. They shall sign a written statement attesting to the observed behavior and agree to provide testimony regarding the dog's behavior if necessary.

(B) The Chief of Police or his designee shall give the dog's owner written notice by certified mail or personal service of the dog's classification as potentially dangerous dog and of the additional restrictions applicable to that dog by reason of its classification. The imposition of one penalty for any violation shall not excuse the violation or permit it to continue; and all persons shall be required to correct or remedy such violations or defects within a reasonable time; and when not otherwise specified, each ten days that prohibited conditions are maintained shall constitute a separate offense. (D) *City permission requirement.* No person may occupy or encroach on a public right-of-way without the permission of the city. The city grants permission to use rights-of-way by franchises, licenses and permits.

(E) *Obligations of the city.* The exercise of jurisdiction and regulatory control over a public right-of-way by the city is not official acceptance of the right-of-way, and does not obligate the city to maintain or repair any part of the right-of-way.
(Ord. 97-04, passed 2-24-97)

§ 95.02 CONSTRUCTION OF CITY SIDEWALKS REQUIRED.

(A) No building permit with a construction value of over \$5,000 shall be granted for the construction, addition, or remodeling of any building unless the required building plans provide for the construction of cement sidewalks on all sides of the property that abut city streets.

(B) In residential areas, the sidewalk shall be from the right-of-way line to the curb or a minimum width of four feet, whichever is greater. The grade shall be that approved by the City Engineer.

(C) Deferment of sidewalk construction as required in division (A) can be deferred by the Building Official if all of the following conditions are met:

(1) Less than one-half of the required sidewalk on the same side of the block is already constructed.

(2) Deferral of the sidewalk construction does not pose a threat to the welfare and safety of the public based upon a review of the pedestrian/vehicular traffic, the width and condition of the street, and the on-street parking.

(3) The area designated for sidewalk is graded and sloped for future sidewalk construction.

(4) The property owner agrees to avoid planting trees or building fences, retaining walls, steps, or other impediments to the future sidewalk. The area may be planted and maintained as a lawn.

(5) The plans note that a deferment has been requested and granted but that construction may be ordered by the City Council at any time.

(D) Sidewalk construction, which has been deferred according to division (C) may be initiated by resolution of the City Council.

(E) The City Council may grant an exclusion from sidewalk construction in the case where the topography of the site will make the construction of sidewalks impractical.

(Ord. 86-09, passed 3-24-86; Am. Ord. 92-03, passed 1-28-91; Am. Ord. 2015-01, passed 3-10-15)

(B) Any property owner desiring to obtain a permit for the construction or maintenance of a sidewalk and/or curb or driveway to serve his property shall file an application therefor with the Public Works Director. The application shall be in writing upon a form provided by the city and shall contain information showing type of construction, location, and any other information which may be required by the Public Works Director. If the Public Works Director finds that the construction of the sidewalk, curb, and/or driveway will not be a menace to the safety of the city, the Public Works Director shall approve the application and set forth the fee required. Thereupon, the City Auditor shall collect said fee and issue the permit. When issued, a copy of the permit is to be delivered to the Public Works Director, who will thereupon cause line and grade stakes to be set and inspect the work during its progress. All construction to be in accordance with plans and specifications on file in the Public Works Director's office.

(C) The sidewalk and curb shall conform to specifications and shall be located as established for various streets. The driveway approaches, measured between the transition areas, shall have the following maximum lengths with due regard for interest and convenience of the public as well as use of the property served by such a driveway approach.

Driveway approaches shall clear all public facilities such as lighting standards, traffic signal standards, utility poles, fire hydrants, and street trees, by a minimum of three feet. Any relocation of public facilities required to maintain such clearance shall be at the expense of the property owner who is installing the driveway approach.

(5) *Distance between driveways.*

(a) A full height of curb shall be maintained for a minimum distance of six feet between the transitions of adjoining driveways. No driveway shall be constructed which results in a curb length between driveways in excess of 12 feet unless the curb length is at least the length of one standard parking space of 22 feet.

(b) If more than one industrial or commercial service driveway approach is required for frontage up to 100 feet, the maximum length of the driveway approach shall be 20 feet and not more than two such driveway approaches shall be permitted; provided, however, that not less than 12 feet of straight curb must separate industrial or commercial service driveways under one ownership.

(6) A statement that the person responsible may protest the notice to abate by giving notice to the City Manager, ten days from the date or posting of the notice.

(C) The City Manager, or a designated representative, posting the notice shall execute and file with the city a certificate before a notary public, stating the date and place of the posting, required in division (A) of this section.

(D) An error in the name or address of the person responsible shall not make the notice void.
(Ord. 96-15, passed 6-10-96)

§ 96.36 TIME FRAME FOR ABATEMENT.

(C) If the costs of the abatement are not paid within 30 days from the date of the notice of assessment, an assessment of the costs, as stated or as decided by the Council, shall be made by resolution and it shall constitute a lien on the property from which the nuisance was removed or abated.

(D) The lien shall be enforced in the same manner as liens for street improvements, utility bills and other city liens and shall bear interest at an annual rate of 18%. The interest rate shall begin to run on the thirty-first day from the date of notice of abatement.

(E) An error in the name of the owner or the person responsible or a failure to receive the notice of assessment will not void the assessment, and it shall remain a valid lien against the property.
(Ord. 96-15, passed 6-10-96)

§ 98.01 PURPOSE.

The purpose of this chapter is to promote and protect the public health, safety, and general welfare by providing for the regulation of the planting, maintenance, and removal of trees in the city. (Ord. 97-14, passed 6-23-97)

§ 98.02 DEFINITIONS.

DANGEROUS TREES. A tree that is classified as a dangerous tree by the Tree Board.

HERITAGE TREES. Trees of significant historical value so designated by the Tree Board.

PARK TREES. Trees in public parks having individual names, and all areas owned by the city, or to which the public has free access as a park.

§ 98.03 TREE BOARD.

(A) *Creation and establishment.* There is hereby created and established a Tree Board for the city, which shall consist of five members. Members shall be residents of the city, or business owner or an employee of a business located within the city.

(B) *Term of office and compensation.* Tree Board members shall each serve a three-year term with the exception of the original members. The term of office of the first member appointed shall expire on June 30, 1998; the terms of office of the second and third members appointed shall expire on June 30, 1999; and the terms of office for the fourth and fifth members appointed shall expire on June 30, 2000. In the event that a vacancy shall occur during the term of any member, his successor shall be appointed for the unexpired portion of the term. Members shall serve without compensation.

(C) *Duties and responsibilities.* It shall be the responsibility of the Tree Board to:

(1) Study, investigate, and develop and/or update annually, a written plan for the care, preservation, pruning, planting, replanting, removal or disposition of trees in parks, along streets, and in other public areas. Such plan will be presented annually to the City Manager and upon City Council acceptance and approval shall constitute the official comprehensive city tree plan for the city. The Tree Board, when requested by the City Council, shall consider, investigate, make findings, report and recommend upon any special matter or question

coming within the scope of its duties and responsibilities,

(2) Develop criteria for city staff and/or contractors to apply in making decisions entrusted to staff and/or contractor discretion,

(3) Designate Heritage Trees on public and private lands within the city,

(Ord. 97-14, passed 6-23-97)

§ 98.04 TREE PLANTING.

(A) The Tree Board shall develop and maintain a list of approved trees for planting along streets. The trees will be listed in three size classes based on mature height: small trees (under 30 feet); medium (30 to 50 feet); and large (over 50 feet). A list of trees not suitable for planting will also be created by the Tree Board.

(B) The spacing of street trees will be in accordance with the three species size classes listed in division (A) of this section, and the Tree Board shall develop criteria on the spacing of street trees.

(C) The distance trees may be planted from curbs or curblines and sidewalks will be in

accordance with the three species size classes listed in division (A) of this section. No tree may be planted in a planting strip with a width of less than the following: small trees, three feet; medium trees, five feet; and large trees, eight feet. The exception to this rule shall be when curb and sidewalk are protected by a chemical or mechanical barrier approved by the city.

(D) No street tree shall be planted within 25 feet of any street corner, measured from the point of nearest intersecting curbs or curblines. No street tree shall be planted within ten feet of any fireplug.

(E) No street trees other than those species listed as small trees in division (A) of this section may be planted under or within ten feet of any overhead utility wire.

(Ord. 97-14, passed 6-23-97) Penalty, see § 10.99

§ 98.05 HERITAGE TREES.

The Tree Board may designate certain trees as "Heritage Trees" within the city with the consent of the owner of record. The purpose of the Heritage Tree designation is to recognize, foster appreciation of, and protect trees having significance to the community. The Tree Board shall have the authority to determine, select, and identify such trees that qualify as Heritage Trees. Once a tree is designated as a Heritage Tree, it will remain so unless it becomes necessary to classify it as a dangerous tree and remove as such. Heritage Trees may not be removed without the express consent of the Tree Board.

(Ord. 97-14, passed 6-23-97) Penalty, see § 10.99

§ 98.06 PUBLIC TREE MAINTENANCE AND CARE.

The city shall have the right to plant, prune, maintain and remove trees within the lines of all streets, alleys, avenues, lanes, squares and public grounds, as may be necessary to insure public safety or to preserve or enhance the symmetry and beauty of such public grounds. The Tree Board may remove or cause or order to be removed, any tree or part thereof which is in an unsafe condition or which by reason of

its nature is injurious to sewers, electric power lines, gas lines, water lines, or other public improvements, or is affected with any injurious fungus, insect, or other pest. This section does not prohibit the planting of street trees by adjacent property owners providing that the selection and location of said trees is in accordance with § 98.04.

(A) Every owner of any tree, located on private property, overhanging any street or right-of-way within the city shall prune the branches so the branches shall not obstruct the light from any street lamp or obstruct the view of any street intersection, traffic sign, or traffic-control device. The city shall have the right to prune any tree or shrub on private property when it interferes with the light from any street lamp, or interferes with visibility of any traffic-control device or sign or vision clearance area at intersections or driveways.

(B) It shall be unlawful as a normal practice for any person, firm, or city department to top any street tree, park tree, or other tree on public property. Topping is defined as the severe cutting back of limbs to stubs larger than three inches in diameter within the tree's crown to such a degree as to remove the normal canopy and disfigure the tree. Trees severely damaged by storms or other causes, or certain trees under utility wires or other obstructions where other pruning practices are impractical may be exempted from this section at the determination of the Tree Board.

(C) The Tree Board shall have the right to cause the pruning or removal of any dead or dangerous trees on private property within the city, when such trees constitute a hazard to life and property, or harbor insects or disease which constitute an imminent threat to other trees within the city. The City Manager or his designee will notify in writing the owners of such trees. Removal shall be done by said owners at their own expense within 30 days after the date of the written notice. The failure of the property owner to prune or remove said dead or dangerous trees within 30 days of the delivery of notices shall be deemed a violation of the City Code of Ordinances, and the City Manager or his designee may at any time thereafter prune or remove said dead or dangerous tree and assess the cost against the

property as provided by the City Code.
(Ord. 97-14, passed 6-23-97)

§ 98.07 REVIEW BY CITY COUNCIL.

The City Council shall have the right to review the conduct, acts, and decisions of the Tree Board. Any person may appeal from any ruling or order of the Tree Board to the City Council who may hear the matter and make final decisions.

(Ord. 97-14, passed 6-23-97)

(Ord. 81-30, passed 10-27-81)

(A) The open accumulation and storage of a discarded vehicle is hereby found to create a condition tending to:

(3) Invite plundering;

(4) Create fire hazards;

(5) Constitute an attractive nuisance creating a hazard to the health and safety of minors;

(Ord. 81-30, passed 10-27-81)

§ 99.03 PROHIBITED ACTION.

It shall be unlawful to store or permit the storing of a discarded vehicle upon any private property within the city unless the vehicle is completely enclosed within a building or unless it is in connection with a business enterprise dealing in junked vehicles lawfully conducted within the city.

(Ord. 81-30, passed 10-27-81) Penalty, see § 99.99

(2) Completely enclosed within a building.

(C) The notice shall also state that the alternative to compliance with division (B) of this section is to petition the City Manager and request, in writing, an appearance before the City Council within seven days of mailing or posting of the notice and show cause why such vehicle should not be immediately abated as provided in this ordinance.

(D) The notice shall also state that failure to comply with this chapter authorizes the city to remove the vehicle and charge the cost.

(Ord. 81-30, passed 10-27-81)

§ 99.05 ENTRY ONTO PRIVATE PROPERTY.

(A) The Chief of Police is authorized at all reasonable times to enter upon private property and examine any vehicle for the purpose of determining whether or not it is in a discarded condition. However, before entering upon private property, the Chief shall obtain the consent of an occupant thereof or a warrant of the municipal court authorizing entry for the purpose of inspection, except when an emergency exists.

(B) No search warrant shall be issued under the terms of this chapter until an affidavit has been filed with the Municipal Court, showing probable cause for such inspection by stating the purpose and extent of the proposed inspection, citing this chapter as the basis for such inspection, whether it is an inspection instituted by complaint or other specific or general information concerning the vehicle in question or the property on which it is situated.

(C) It is unlawful for any person to interfere with or attempt to prevent the Chief of Police from

entering upon private premises and inspecting any vehicle, when an emergency exists or the Chief of Police exhibits a warrant authorizing entry.

§ 99.06 HEARING BY CITY COUNCIL.

(A) Pursuant to a request, the City Council shall fix a time for a hearing to show cause why a vehicle nuisance should not be immediately abated. It shall receive the evidence and testimony of the Chief of Police and other interested persons concerning the existence, location and condition of the vehicle.

(B) After the hearing, the City Council may authorize and order the vehicle removed by the city in accordance with the provisions of this chapter. The City Council shall make its order in the form of a resolution which declares the vehicle to be a public nuisance. The resolution may order the removal of more than one vehicle and may consolidate the hearings and orders relating to more than one vehicle. The persons receiving the notice specified in section four shall be sent copies of the resolution of the council.

(C) In addition, the City Council may impose conditions and take such other action as it deems appropriate under the circumstances in order to carry out the purposes of this chapter. It may delay the time for removal of said vehicle where, in its opinion, the circumstances justify it. It shall refuse to order the removal of the vehicle where the vehicle, in the opinion of the City Council, is not subject to the provisions of this chapter. The City Council shall not be bound by the technical rules of evidence in the conduct of the hearing.
(Ord. 81-30, passed 10-27-81)

§ 99.07 ABATEMENT BY CITY AND APPRAISAL.

employees or duly authorized independent contractors. It shall be unlawful for any person to interfere with, hinder or refuse to allow such persons to enter upon private property for the purpose of removing a vehicle under the provisions of this chapter.

(B) After removing the vehicle, the city shall cause it to be appraised.
(Ord. 81-30, passed 10-27-81)

§ 99.08 LOW VALUE VEHICLE.

(A) If the vehicle is appraised at \$300 or less, the Chief of Police shall file with the Motor Vehicles Division an affidavit describing the vehicle, including the license plates, if any, stating the location and appraised value of the vehicle, and stating that the vehicle will be junked or dismantled. The Chief of Police may, without notice and public auction, dispose of the vehicle and execute a certificate of sale.

(B) The certificate of sale shall be substantially as follows:

(Ord. 81-30, passed 10-27-81)

§ 99.09 NOTICE OF PUBLIC SALE.

(A) If the vehicle is appraised over \$300, the Chief of Police shall cause to be published in a newspaper of general circulation within the city a notice of sale. The notice of sale shall state:

§ 99.10 PUBLIC SALE.

(A) If a vehicle is appraised over \$300, the Chief of Police shall hold a sale at the time and the place appointed within the view of the vehicle to be sold.

(B) The vehicle shall be sold to the highest and best bidder, provided that if no bids are entered, or those bids which are entered are less than the costs incurred by the city, the Chief of Police may enter a bid on behalf of the city in an amount equal to such costs.

(C) At the time of payment of the purchase price, the Chief of Police shall execute a certificate of sale, in duplicate, the original of which shall be delivered to the purchaser and the copy thereof filed with the auditor of the city.

(D) The certificate of sale shall be substantially as follows:

"CERTIFICATE OF SALE

and in consideration of the payment of the said sum of \$ _____, receipt whereof is hereby acknowledged, I have this day delivered to said purchaser the foregoing property.

Dated this _____ day of _____, 19/20___

Note: The city of Seaside assumes no responsibility as to the condition of title of the above-described property. In case this sale shall for any reason be invalid, the liability of the city is limited to the return of the purchase price."

(Ord. 81-30, passed 10-27-81)

§ 99.11 REDEMPTION PRIOR TO SALE.

(A) A vehicle impounded under the provisions of this chapter may be redeemed by its owner or by the person in charge of the property from which the vehicle was removed, before a sale or disposition has taken place, by applying to the police department, whereupon he or she shall:

(1) Submit evidence of his ownership or interest in the vehicle, satisfactory to the Chief of Police, that such claim is rightful; and

(2) Pay the costs due and owing at the time the application to redeem is made; and

(3) Give evidence that the nuisance character of the vehicle will not be allowed to be resumed.

(B) Upon compliance with division (A) of this section, the Chief of Police shall execute a receipt and

cause the vehicle to be returned.
(Ord. 81-30, passed 10-27-81)

§ 99.12 ASSESSMENT OF COSTS.

(A) After disposing of the discarded vehicle and deducting the money, if any, received from any sale of the vehicle from the costs, the City Manager shall give notice as specified in § 99.04 to the person in charge of the property from which the vehicle was removed:

(1) Of the unpaid costs of abatement;

(2) That the cost as indicated will be assessed to and become a lien against the real property unless paid within 30 days from the date of the notice;

(3) That if the person in charge of the property objects to the cost of the abatement indicated, he or she may file a written notice of objection with the City Manager within 20 days from the date of the notice.

(B) Within 40 days after the date of the notice, objections to the proposed assessment shall be heard and determined by the City Council.

(C) If the costs of the abatement are not paid within 30 days from the date of the notice, an assessment of the costs shall be made by resolution of the City Council and shall be entered in the docket of city liens, and upon such entry being made shall constitute a lien upon the real property from which the nuisance was removed or abated.

(D) The lien shall be enforced in the same manner as liens for street improvements are enforced and shall bear interest at the current legal rate of interest. Such interest shall accrue from date of the entry of the lien in the lien docket.

(E) An error in the name of the person in charge of the property shall not void the assessment, nor will a failure to receive the notice of the proposed assessment render the assessment void.

The assessment shall remain a valid lien against the property.
(Ord. 81-30, passed 10-27-81)

§ 99.13 SUMMARY ABATEMENT.

The procedure provided by this chapter is not exclusive, but is in addition to procedure provided by other ordinances, and the City Manager may proceed summarily to abate a health or other nuisance which unmistakably exists and which imminently endangers human life or property.

(Ord. 81-30, passed 10-27-81)

§ 99.99 PENALTY.

(A) A person violating this chapter shall, upon conviction thereof, be punished by a fine not to exceed \$500.

(B) Each day's violation of a provision of this chapter constitutes a separate offense.

(C) The abatement of a nuisance is not a penalty for violating this chapter, but is an additional remedy. The imposition of a penalty does not relieve a person of the duty to abate the nuisance; however, abatement of a nuisance within the specified time within the notice to abate, or if a written protest has been filed, then abatement within the time period specified by the City Council, if determined that a nuisance exists, will relieve the responsible person from the imposition of any fine or imprisonment under this section.
